

## REMARKS

This amendment is a resubmission of an amendment filed July 6, 2005 in the instant application and is presented in conjunction with Applicants' response to the outstanding restriction requirement and election of species, which was previously enclosed. After amendment, claims 93-100 are pending in the present application, which is based upon the subject matter in the originally filed claims (in particular 82-85). Support for the amendment to the claims can be found throughout the originally filed application, and in particular, in the specification at page 4, top and bottom, page 5, first paragraph, page 13, in the definition of "polyester" and in original claims 83-85. No new matter has been added to this application by way of this amendment.

The substance of the previously submitted restriction requirement remains unchanged, although reference to claims other than 93-100 has been rendered moot by the presentation of the instant amendment.

Applicants have cancelled 69 claims (including several independent claims) and added 8 claims (one independent). No fee is due for the presentation of this amendment. A small entity form is on file in the present application.

If the Examiner determines that a fee is due or any overpayment has been made, please charge/credit deposit account 04-0838.

Respectfully submitted,

COLEMAN SUDOL SAPONE, P.C.
